Thanks Alice that sounds great. I think you meant the next CAG meeting, yes, that is July 12. I attached my presentation, I fixed a small typo.

Subject: CAG meeting follow-up

Hope the CSTAG meeting went well last night!

Sarah asked that a link be provided to the CSTAG comments: I can have the following blurb put under "Project News" on the Home Page of ourPassaic.org – the link would be provided with the underlined words. Feel free to edit.

EPA CSTAG Makes Recommendations on Upper 9 Mile Interim Action [April 2018]

EPA's Contaminated Sediments Technical Advisory Group (CSTAG) made recommendations on a proposed Upper 9-Mile Interim Action following a meeting with EPA Region 2 and key stakeholders in March. Their comments are available on the CSTAG web site.

And I just wanted to confirm that the next CSTAG meeting is still scheduled for July 12, location TBD? I'll have "Project Meetings" box updated.

Finally, I'd like to post the presentations that were made last night – I think I have the CAG Intro one (Shereen sent the last latest version in an e-mail on 5/8/18 at 8:30am?), but please send me any others.

Subject: RE: Draft Site Selection and Evaluation report

I'll follow up with Bill and let him know the final will be available in a week or so? Do you think it will be posted in the digital library?

Also, Michael this reminds me that a few people last night asked where to find the CSTAG memo. Could we put that somewhere? I found in on the CSTAG's website so maybe we could just link to that on ourpassaic.org.

Subject: Draft Site Selection and Evaluation report

I reviewed NJDEP's comments on the draft Site Selection and Evaluation Report. Turns out that there is a small correction to be made – the report uses a NJDEP dredging technical manual as an example of a TBC, but NJDEP pointed out that the manual was promulgated, so it might not be the best example to use.

I would like to have OCC make that small edit (i.e., remove the sentence with the example of the TBC entirely) and re-submit the report with the certification that the AOC requires of this report. While we do not approve the report (per AOC), that certification will represent the finalization of the report.

If Bill Hyatt could wait until that final report, that would be ideal. But again, as we discussed, if he insists on getting the draft, we will send.
